History

#1 - 07/29/2026 10:23 AM - Greg Shah

The web API tests need:

- To be included in a bzt repo, preferably in [Testcases](#).
- To have a documented process to setup and run them.
- To have any fixes or improvements needed to get them running in trunk and 9709e.

Constantin: Do these tests fit somewhere in the [Runtime Infrastructure Testcases](#) test sets or are they something else?

#2 - 07/29/2026 10:23 AM - Greg Shah

- Assignee set to Sergey Ivanovskiy

#3 - 07/29/2026 10:34 AM - Constantin Asofiei

Greg, web_apis programs are part of the xfer testcases project. I just used a smaller/dedicated project because that xfer project can get changed and I don't think we have standardized it (or at least it wasn't at that time).

I can look into it to see how these can be ran directly via xfer testcases.

#4 - 07/29/2026 10:38 AM - Greg Shah

Are these [REST Tests](#), [SOAP Tests](#), [WebSpeed/WebHandler Tests](#) or something else?

#5 - 07/29/2026 10:40 AM - Constantin Asofiei

Exactly these.

#6 - 07/29/2026 10:44 AM - Greg Shah

OK, let's use those wiki pages for the documentation and details.

#8 - 08/01/2026 08:46 AM - Sergey Ivanovskiy

Unzipped this archive [#9709-1066](#). With help of Claude super power reused the same server.sh scripts that used by hotel_gui like projects.
