History

#3 - 09/03/2026 03:22 AM - Alexandru Lungu

- Assignee set to Alexandru Lungu
- Status changed from New to WIP

There is ongoing work on #11730 (11730aa) to refactor invalidateCache and refrshBuffers in order to properly integrate with exclusively locked records. There are more details in #11730.

In #11622 there is ongoing discussion, especially in regard to query capability. There is a 11622a that already does plenty of changes to improve integration with FWD persistence layer and a Wiki ([Querying with Native SQL](#) and [Running Native SQL](#)).
