History

#1 - 07/29/2012 08:28 AM - Greg Shah

The content for these slides will come from the events.odt chapter of the P2J Conversion Reference.

The slides filename in Bazaar (in the p2j_training/developer1/ project) should be events.odp.

Please note that there is some highly related content (how triggers convert) in the blocks.odt chapter (and slides when we create them). We don't want to duplicate that content here. So, you should stick with the topics and content of the events.odt chapter only.
