Description

History

#1 - 08/02/2012 05:15 PM - Eric Faulhaber

- Parent task set to #1456

The content for these slides will come from the record_locks.odt chapter of the P2J Conversion Reference.

The slides filename in Bazaar (in the p2j_training/developer1/ project) should be record_locks.odp.

#2 - 08/02/2012 05:53 PM - Eric Faulhaber

When preparing slides for the "Lock State Transition Rules" section, we don't want a separate slide for each case -- that's just too much to cover in a presentation; the user can read the reference for the full details. Let's just have slides for examples 2 & 9; this should give the student a good cross-section of the rules and plenty to digest in the class.

#3 - 08/09/2012 03:48 AM - Costin Savin

- Status changed from WIP to Review
