#1 - 08/16/2012 05:10 PM - Greg Shah

Please improve the bootstrap_cfg.odt chapter in the p2j_docs/runtime_installation_configuration_and_administration_guide/ project. This can be found in bazaar. The chapter has some content already there. There are notes included, which start with "GES:". These indicate portions of the document that need specific work. You should also change or add anything else that you find would be useful.
