Description	
Related to Conversion Tools - Feature #1901: modify the conversion process to... New	

History

#1 - 12/11/2012 12:44 PM - Greg Shah

Update all P2J books to describe how to:
- run conversion on Windows
- run P2J (client and server) on Windows
- setup the project and build P2J on Windows

At a minimum, the conversion handbook, the developer guide and the runtime configuration, installation and administration guide will need updates.

#2 - 12/11/2012 12:45 PM - Greg Shah

- Target version set to Milestone 18

#3 - 12/14/2012 02:15 PM - Eugenie Lyzenko

If my understanding is OK the you mean the following directories need to be updated:

p2j_books/conversion_handbook
p2j_books/developer_guide
p2j_books/runtime_configuration_installation_and_administration_guide

Correct? I suggest to add one more chapter with Windows specifics to all these directories to be able to simple integrate it into final pdf document. Is this approach OK?

#4 - 12/14/2012 03:26 PM - Greg Shah

- Status changed from New to WIP

Yes, these are the projects that need to be updated.

I suggest to add one more chapter with Windows specifics to all these directories to be able to simple integrate it into final pdf document. Is this approach OK?

That is fine for now.

#5 - 12/21/2012 02:29 PM - Eugenie Lyzenko

- File *windows_target_specific.odt* added

- File *windows_specific.odt* added

I've uploaded two draft files here, one for conversion handbook, another for developer guide. Now I'm thinking and start writing the addition for runtime configuration part. Sorry, it takes a time to distill what I need to mention there from what I don't.

Continue working.

#6 - 12/25/2012 05:08 PM - Eugenie Lyzenko

- File *windows_specific_documents_20121225.zip* added

The updated versions of the document have been uploaded here. Also the new document part describing the run-time setup process has been added.

#7 - 12/27/2012 03:37 PM - Eugenie Lyzenko

- File *windows_specific_documents_20121227.zip* added

Small changes to Windows specific has been uploaded. The issues for conversion INPUT THROUGH, OUTPUT THROUGH and INPUT-OUTPUT THROUGH have not been documented yet. Do we plan to support these features in Windows-target P2J converted code?

#8 - 01/08/2013 08:43 AM - Eugenie Lyzenko

- File *windows_specific_documents_20130108.zip* added

The latest document update uploaded. With small syntax fix and new line behavior description adding.

#9 - 11/16/2016 01:31 PM - Greg Shah

- Target version changed from Milestone 18 to Revise Documentation and Training Materials

#10 - 01/25/2017 04:14 PM - Greg Shah

- Related to Feature #1901: modify the conversion process to properly run on Windows added

#11 - 04/11/2017 08:21 AM - Greg Shah

- Status changed from WIP to Closed

- % Done changed from 0 to 100
