History

#1 - 04/29/2013 07:01 PM - Eugenie Lyzenko

The symlink support added. The approach is based on GetFileAttributes() Windows API call and flag FILE_ATTRIBUTE_REPARSE_POINT. For symbolic link it is set to TRUE. Was tested on Windows 7 64-bit for link created from file. Also some code cleanup and reworking was performed in update the Java memory free call was separated to the common code.

#2 - 04/30/2013 09:19 AM - Greg Shah

The changes look good.

#3 - 05/31/2013 09:49 AM - Greg Shah

- Status changed from New to Closed

- % Done changed from 0 to 100

#4 - 11/16/2016 11:43 AM - Greg Shah

- Target version changed from Milestone 7 to Runtime Support for Server Features
