Related to User Interface - Feature #2368: allow widget output to stream in G... WIP	

History

#1 - 09/27/2014 12:07 PM - Hynek Cihlar

The challenge here is that the GUI session uses GUI-specific widgets which know how to render themselves on raster-based terminals but the output redirection is character-based.

#2 - 03/23/2016 04:33 PM - Greg Shah

- Status changed from New to Rejected

- Target version deleted (Milestone 12)

I'm closing this because it is a duplicate of [#2368](#).
