History

#1 - 10/31/2014 05:31 AM - Constantin Asofiei

From [#2423](#) note 7:

Another frustrating fact about events: although the WINDOW-* events are reporting LAST-EVENT:CODE values (other than -1), these values are not reported by the KEY-CODE("WINDOW-*") function: this always returns -1... Progress either uses different tables for PROGRESS and KEYPRESS events or something else is happening. The collisions are (for GUI WINDOW-* events):

1. WINDOW-CLOSE: 1078 - ALT-6
2. WINDOW-MAXIMIZED: 1094 - ALT-F
3. WINDOW-MINIMIZED: 1095 - ALT-G
4. WINDOW-RESTORED: 1096 - ALT-H
5. WINDOW-RESIZED: 1120 - ALT-`

Investigation is needed to identify why this collision appears, and fix as necessary.
