Description				

History

#1 - 02/01/2015 10:37 AM - Constantin Asofiei

- File ca_upd20150131c.zip added

- Status changed from WIP to Review

Attached update fixes the reset of client-side context data, when CTRL-C is pressed and ClientCore.start loop goes to a second iteration.

Passed runtime testing.

#2 - 02/01/2015 11:30 AM - Greg Shah

Code Review ca_upd20150131c.zip

It looks good. My only question is whether the ContextLocal should also have its SecurityManager instance set to null.

#3 - 02/01/2015 11:30 AM - Greg Shah

You can go ahead and check it in.

#4 - 02/01/2015 11:36 AM - Constantin Asofiei

Released to rev 10734.

> My only question is whether the ContextLocal should also have its SecurityManager instance set to null.

The securityManager is really used only on server-side... but to clear it, we need to keep track of all ContextLocal instances in some kind of registry.

#5 - 02/01/2015 11:41 AM - Greg Shah

- Target version set to Milestone 12

- Status changed from Review to Closed

Let's not worry about this now. Your update is a good, safe movement forward.

#6 - 11/16/2016 12:13 PM - Greg Shah

- Target version changed from Milestone 12 to GUI Support for a Complex ADM2 App
