<b>Description</b>			

### History

#### #1 - 06/12/2015 08:56 AM - Igor Skornyakov

- File fv.p added

ith P2L FillInWidget.getScreenValue() returns blank if the first read access was when the focus was in the different frame.

How to reproduce (see attached 4GL program):

1. Start the converted code.
2. Type digits in the "FILL-IN" frame.
3. Switch to the "COMBO-BOX" frame.
4. Type CTRL-Y.

#### #2 - 06/12/2015 09:04 AM - Igor Skornyakov

Another minor issue with the FillInWidget.getScreenValue()

If you run p2j conversion of this test and type a space then the widget will not change but the screen value will be "\$ABC" while in 4GL it remains empty.

#### #3 - 03/23/2016 05:16 PM - Greg Shah

- Target version deleted (Milestone 12)
