History

#1 - 07/03/2015 08:14 AM - Greg Shah

- File *ias_upd20150703-harness.zip* added

From Igor (note 176 in [#2534](#)):

I found useful to include the template name into the report in the case of mismatch. It helps a lot in the test results' analysis (at least for me). Do you think that it makes sense to include it in the main version of the harness?

#2 - 07/03/2015 08:19 AM - Greg Shah

Code Review *ias_upd20150703-harness.zip*

Yes, I think this is a useful feature. Please create a task branch (in the `harness_repo/harness` project). Unzip this update and commit it to the task branch.

Then make the following changes (and commit them to the task branch):

1. All files need history entries and copyright dates that are ranges with -2015.
2. `ScreenRegion` needs the `frame` member to have javadoc and the `frame` parameter for the constructor needs to be javadoc'd.

#3 - 07/03/2015 08:21 AM - Igor Skornyakov

2. ScreenRegion needs the frame member to have javadoc and the frame parameter for the constructor needs to be javadoc'd.

OK, thank you, I'm working in this now. I need to read the documentation about branches anyway.

#4 - 07/13/2015 04:10 PM - Igor Skornyakov

Created branch 2603a. Committed changes with comments.

#5 - 07/14/2015 05:02 PM - Greg Shah

Code Review Task Branch 2603a, Revision 7

I'm good with the changes. Have these latest changes been tested in a full regression testing run of MAJIC?

#6 - 07/14/2015 05:10 PM - Igor Skornyakov

Greg Shah wrote:

Yes, they had. Actually a number of times.

#7 - 07/14/2015 05:25 PM - Greg Shah

OK, then go ahead with the merge/commit to trunk.

When you send out the notification email, make sure you explain to people that they should use `cd ~/testing/ && run_regression.sh` configure to obtain the latest harness code.

I will do the branch merge for the first time and I prefer to do it with a "fresh head" tomorrow. Is it OK?

#9 - 07/14/2015 05:38 PM - Greg Shah

I prefer to do it with a "fresh head" tomorrow. Is it OK?

Sure.

#10 - 07/15/2015 10:08 AM - Igor Skornyakov

The task branch passed regression testing and was merged with the harness trunk and checked in as revision 7.

#11 - 07/15/2015 10:38 AM - Greg Shah

- Status changed from WIP to Closed
