

User Interface - Bug #2752

Bug # 2677 (New): fix drawing and functional differences between P2J GUI and 4GL GUI

ask-gui.p frame has scrollbars when it should not

10/09/2015 12:10 PM - Greg Shah

Progress:

#2 - 10/09/2015 12:12 PM - Greg Shah

Note that there are some other frame and widget sizing issues that may be related. See [#2704](#).

#3 - 10/15/2015 07:48 AM - Constantin Asofiei

- Status changed from New to WIP
- Assignee set to Constantin Asofiei

There is an interesting issue here: in P2J, the frame layout is done with a window size of 80 chars. But in 4GL, the layout is done when the frame is realized... so it will pick up the new window size and avoid the scrollbars.

The scrollbars remain only if the frame (in ask-gui.p) is realized before the window's width is set to 109.

#4 - 10/15/2015 09:42 AM - Constantin Asofiei

[#2752](#) and [#2704](#) are the same issue. Fixed in 1811s rev 10969.

#5 - 10/15/2015 12:23 PM - Greg Shah

- Status changed from WIP to Closed

#6 - 11/10/2015 05:05 AM - Greg Shah

- % Done changed from 0 to 100

#7 - 11/16/2016 12:12 PM - Greg Shah

- Target version changed from Milestone 12 to GUI Support for a Complex ADM2 App
