

User Interface - Bug #2831

Bug # 2677 (New): fix drawing and functional differences between P2J GUI and 4GL GUI

Pressing ENTER key on the combo box breaks the window layout.

11/06/2015 09:45 AM - Sergey Ivanovskiy

To reproduce this bug it needs to run the following test case `./demo/demo_widgets.p (com.goldencode.testcases.demo.DemoWidgets.execute)` and connect to the server by the web client.

- 1) Log into the web client.
 - 2) Select the demo window and press ENTER key.
- It breaks the demo window layout.

#2 - 11/17/2015 08:16 AM - Greg Shah

- Assignee set to *Eugenie Lyzenko*
- Target version set to *Milestone 12*
- Start date deleted (*11/06/2015*)

#3 - 11/18/2015 02:52 PM - Eugenie Lyzenko

Confirmed as issue for Swing client too.

#4 - 11/18/2015 04:25 PM - Eugenie Lyzenko

- File *evl_upd20151118c.zip* added

The root cause is the improper handling for ENTER key in GUI mode for combo-box. Even if the `SESSION:DATA-ENTRY-RETURN` is TRUE it must be ignored. So the combo-box just do nothing in GUI for ENTER key. The solution is to override the `getDataEntryReturn()` for GUI mode returning always false. The cumulative fix(with 2834 issue resolution include) has been attached for review.

Only GUI code is involved in both fixes.

#5 - 11/19/2015 05:25 PM - Greg Shah

Code Review *evl_upd20151118c.zip*

I am fine with the change to `ComboBoxGuiImpl`.

#6 - 11/19/2015 05:30 PM - Greg Shah

Please check in the ComboBoxGuiImpl change from evl_upd20151118c.zip. We will wait on the ScrollableSelectionListGuiImpl.java change until we hear from Constantin.

Committed to 2677a as revision 11067. The file ui/client/ComboBox.java committed to as requirement for this fix. ScrollableSelectionListGuiImpl.java is untouched.

#8 - 11/19/2015 05:58 PM - Greg Shah

- % Done changed from 0 to 100

- Status changed from New to Closed

#9 - 11/16/2016 12:12 PM - Greg Shah

- Target version changed from Milestone 12 to GUI Support for a Complex ADM2 App
