History

#1 - 12/03/2015 06:01 PM - Hynek Cihlar

When window is mouse-dragged by its title bar and the mouse speed reached certain threshold (and the mouse cursor leaves the title bar) the drag is stopped. This applies to the main window as well as dialog boxes and alert boxes.

#2 - 12/04/2015 07:43 AM - Greg Shah

Although this is a bug, it is highly related to the web client performance improvements we will be making in [#2672](#). We will probably solve both at the same time.

#3 - 08/21/2018 11:27 AM - Hynek Cihlar

- Duplicated by Bug #3693: web client dragging titlebar drops the window while still dragging added

#4 - 11/26/2019 05:26 PM - Hynek Cihlar
