- File edit-quirk.png added

The issue was originally described in issue #2564 note 242.

If a cell is edited and we scroll to the right, the cell is shrunk so that the edited text is left-aligned to the viewport edge. If we press a button, viewport is scrolled to fully display the column (this part is a common behavior).

GES noted that "This seems to be a pretty strange behavior that most users would not like".

#2 - 01/25/2016 09:19 AM - Greg Shah

- Start date deleted (12/17/2015)
- Parent task deleted (#2564)
