Description

History

#1 - 02/25/2016 05:42 PM - Igor Skornyakov

I've noticed the following issue with ask-gui.p. If I try to paste a file name into the entry field right after the start then it doesn't work - the data is pasted and visible but after pressing ENTER I get message ** No PROGRESS program specified for RUN or COMPILE (467). This happens both in Swing and Web GUI. After typing a single character the paste/ENTER works fine. I haven't investigated this issue more deeply so I'm not sure that this is really a P2J issue.
