User Interface - Bug #3123

Bug # 2677 (New): fix drawing and functional differences between P2J GUI and 4GL GUI

Pressing ESC in an active GUI menu should only exit the menu

The issue can be reproduced in current trunk in GUI mode.

The steps are:
1. Activate a window-attached or a popup menu.
2. Press ESC.
3. The currently executed procedure exits. The expected behavior is the ESC key only to exit the menu and not affect the 4GL program flow.
