Description			

History

#1 - 08/11/2017 09:49 AM - Jaroslaw Haziak

The following comments make problems:

```
/*
*****
/* some comment 1 */
/* some comment 2 */
/* some comment 3 */
*****
FUNCTION test-fun RETURNS LOG:
  RETURN TRUE.
END.
```

In such case the conversion log is filled with the following warnings:

```
WARNING: orphaned comment /* some comment 1 */ [COMMENT] @5:1 (12884901928)
WARNING: orphaned comment /* some comment 2 */ [COMMENT] @6:1 (12884901926)
WARNING: orphaned comment /* some comment 3 */ [COMMENT] @7:1 (12884901924)
```

and the translated Java code lacks the actual comments:

```
/** ***** */
/**
 * *****
 */
public logical testFun()
{
    return function("test-fun", logical.class, new Block((Body) () ->
    {
        returnNormal(true);
    }));
}
```
