

FWD - Bug #3321

Usage of 'assert' as a symbol name is translated to non-compilable code

08/12/2017 05:33 AM - Jaroslaw Haziak

Status:	Test	Start date:	08/12/2017
Priority:	Normal	Due date:	
Assignee:	Eric Faulhaber	% Done:	100%
Category:		Estimated time:	0.00 hour
Target version:			
billable:	No	case_num:	
vendor_id:	GCD	version:	
Description			

History

#1 - 08/12/2017 05:36 AM - Jaroslaw Haziak

Example:

```
DEF INPUT PARAM inParam AS CHAR NO-UNDO.  
DEF OUTPUT PARAM ouResult AS CHAR NO-UNDO.  
  
DEF VAR assert AS CHAR INIT 'test' NO-UNDO.  
  
ouResult = inParam + assert.
```

Name 'assert' is translated to Java with no modification. And because 'assert' is a Java keyword, compilation fails.

#2 - 08/16/2017 06:54 PM - Eric Faulhaber

- File 3321_20170816a.patch added

Please let me know if the attached patch fixes this issue. I have compiled, but not tested it.

#3 - 08/16/2017 06:55 PM - Eric Faulhaber

- Assignee set to Eric Faulhaber
- Status changed from New to WIP

#4 - 08/24/2017 12:03 PM - Eric Faulhaber

The patch from [#3321-2](#) was added to task branch 3293a, which was merged to FWD trunk revision 11160.

#5 - 10/03/2017 03:32 PM - Greg Shah

- % Done changed from 0 to 100

The fix for this task is included in FWD v3.1 which was recently released. Download it from https://proj.goldencode.com/projects/p2/wiki/FWD_v3_1_0

Please let us know if this issue can be closed.

#6 - 10/03/2017 03:34 PM - Greg Shah

- *Status changed from WIP to Test*
