History

#1 - 10/11/2017 11:18 PM - Eric Faulhaber

- Status changed from New to WIP
- File 3356a_20171011a.patch added

This was reported separately by two forum users. On Windows, the overview displays the listing of summary reports, but the only summary reports that actually display when clicked in the overview list are the Project Structure reports.

The problem was that the file filter mechanism was not working correctly because we were not accounting properly for the Windows backslash file separator in an SQL query. As a result, all files were being filtered out, leading to no records in summary reports.

Attached is a patch which fixes this issue. It is applied to task branch 3356a. It will be merged to the current development trunk shortly, but since the date of the next public release is unknown, I recommend applying the patch directly to the FWD source code and rebuilding FWD.

#2 - 10/12/2017 12:29 AM - Eric Faulhaber

- Status changed from WIP to Closed

Task branch 3356a was merged to trunk, committed as revision 11177.

#3 - 10/12/2017 12:29 AM - Eric Faulhaber

- % Done changed from 0 to 100
