History

#1 - 04/25/2018 04:00 AM - Hynek Cihlar

Window-attached menu (MENU-BAR) can't be entered and "opened" with the standard menu-enter keys (F3) or mnemonics. Any trivial MENU-BAR related test case will show this issue. I checked the trunk history and it seems this doesn't work for a long time already.

#2 - 04/25/2018 04:20 AM - Hynek Cihlar

Created task branch 3553a and checked in some early and incomplete changes. This only fixes the related event handling and initial focus. Displaying of submenu bodies and menu navigating is TBD.

These changes were originally written for [#3487](#), but due to the extended scope moved in here.

#3 - 04/25/2018 04:28 AM - Hynek Cihlar

There are already multiple open issues for ChUI menus, some seem to have some overlap with this one.
