<b>Description</b>			

#### History

##### #1 - 05/17/2022 03:36 PM - Hynek Cihlar

The issue can be replicated with the following test case.

```
define var v1 as char.  
define var v2 as char.  
define var v3 as char.  
define frame f v1 v2 v3 with side-labels.  
v2:move-before-tab-item(v1:handle).  
enable all with frame f.  
// at this point the tab order should be reset but is not in FWD  
wait-for close of this-procedure.
```

##### #3 - 05/20/2022 04:53 PM - Vladimir Tsichevski

- File *reset-tabitems-on-frame-realize.diff* added

The proposed fix which was not accepted (needs more investigation) is attached as *reset-tabitems-on-frame-realize.diff*.
