History

#1 - 05/25/2022 12:42 PM - Greg Shah

I had done this once many years ago and I forgot the process that I used to get it done. We'll have to figure that out again. It might be tricky because we use such an old version of ANTLR.

The intention is to update the syntax diagrams in the [Conversion Reference](#) as well as to provide popup support in our Eclipse ([#3883](#)) / IntelliJ ([#6319](#)) IDE plugins.

This will be easy to do once we move to ANTLR v4.
