Keikai 5.10.0 is an anticipated version. It fixes a potential security vulnerability <https://tracker.zkoss.org/browse/ZK-5150> and also resolves the workaround <https://potix.freshdesk.com/support/tickets/14754>, which we implemented in FWD. The workaround should be removed when 5.10.0 is deployed.

#3 - 06/09/2022 12:59 PM - Hynek Cihlar

Note that 5.10.0 is not yet available in the private Keikai repositories, but should be soon.
