<b>Description</b>			

#### History

##### #1 - 07/15/2022 08:40 AM - Vladimir Tsichevski

- Subject changed from Property assignment conversion error to OCX property assignment conversion error

The following line assigns the Selected property of an OCX object node:

```
DEFINE INPUT PARAMETER node AS COMPONENT-HANDLE NO-UNDO.  
node:Selected() = TRUE.
```

The code is not correct, since for a property assignment, the parenthesis should not be used, and in FWD this statement causes conversion error.

But in OE this statement is compiled correctly, so statements like this can be found in customer code.

So, FWD should compile it too.

##### #2 - 07/15/2022 08:40 AM - Greg Shah

- Project changed from Conversion Tools to User Interface
