

Conversion Tools - Bug #6768

End of comment "butted" against double-quote fails to parse

09/19/2022 10:28 AM - Roger Borrello

Description			

History

#1 - 09/19/2022 11:17 AM - Roger Borrello

It was reported that this yields a conversion error (with an older version of FWD):

```
EXPORT STREAM Streamname /*DELIMITER ", "*/ Tablename.
```

#2 - 09/19/2022 12:27 PM - Greg Shah

If this isn't an issue in FWD v4, then we can close this.

#3 - 09/19/2022 01:44 PM - Roger Borrello

I updated uast/comment\_test0.p to include some additional tests:

```
...
/* comment 8""*/
/* comment 9 ""*/
message "Done.".
```

Then I went full out and tried:

```
...
DEF STREAM StrX.
OUTPUT STREAM StrX TO VALUE("x.x").
FOR EACH Address NO-LOCK:
    EXPORT STREAM StrX /*DELIMITER ", "*/ Address.
END.
OUTPUT STREAM StrX CLOSE.
message "Done.".
```

None of the above failed to parse. If this is close enough to Scott's code, I think this can be closed.

**#4 - 09/19/2022 02:52 PM - Greg Shah**

- % Done changed from 0 to 100

- Status changed from New to Rejected

It is already fixed in the latest version of FWD.
