

Base Language - Bug #8510

replace all 'new logical' in FWD runtime with logical.of or logical.UNKNOWN

#2 - 04/03/2024 05:26 AM - Constantin Asofiei

Created task branch 8510a from trunk rev 15115. In rev 15116 I removed the logical.of and logical.UNKNOWN from Record.java, as these references are used directly in FWD runtime.

The testcase which should the error is related to IMPORT:

```
def temp-table ttl field f1 as log.
```

```
create ttl.  
ttl.f1 = no.  
output to a.txt.  
export ttl.f1.  
output close.  
release ttl.
```

```
create ttl.  
input from a.txt.  
import ttl.f1.  
input close.
```

```
message ttl.f1.
```

This can be added back once we figure out all cases where the reference is used directly in FWD runtime.

#3 - 04/03/2024 05:26 AM - Constantin Asofiei

8150a was merged to trunk rev 15116 and archived.
