Description			

History

#1 - 04/17/2024 01:49 PM - Alexandru Lungu

This task is a continuation of 8444d (merged to trunk as rev. 15153) to investigate all invoke* methods from the Agent and honor the ACTIVATE/DEACTIVATE behavior of 4GL. The investigation for this was done in #8444 (#8444-96 onward) and only invokeWithArgs was fixed.
