Description			

History

#1 - 04/21/2024 03:50 PM - Stanislav Lomany

- File flag.bmp added
- File button-pressed.p added
- File 4GL button press.mp4 added

In FWD in Windows 10 theme buttons doesn't react to mouse clicks at all. In 4GL clicking may include color change and button content shifting, see the attached video as an example. In Classical theme in FWD reactions are implemented better than in Windows 10 theme.
